Beeston and District Civic Society was founded in 1973 to promote a sense of civic pride and place in Beeston. We continue to care for Beeston’s past, present and future, helping to preserve what is worthwhile and encouraging good design. The Society has been instrumental in securing conservation areas, saving noteworthy buildings from demolition and, more recently, has been involved with the research and installation of blue plaques to commemorate worthy citizens.

Heritage Open Days are an annual national celebration of England’s fantastic architecture, culture and history, offering FREE access to properties and events that are usually not open to the public or normally charge for admission.

Beeston and District Heritage Open Days Group is promoting this year’s programme of local events in South Broxtowe and West Nottingham in conjunction with local societies, organisations and individuals.
